"METALLIFEROUS MINES REGULATION ACT."

HIS HONOUR the Lieutenant Governor has been pleased to approve the following regulations:

(1.) No magazine for explosives shall be maintained on any mining property except with the written permission of the Inspector of Mines. The site of this magazine and the style of structure shall be subject to the approval of the Inspector. Where possible the site of the magazine must be distant at least four hundred feet from the mine and works or any public highway. The magazine shall be constructed of materials and in a manner to ensure safety against explosion from any cause, and shall be either so situated as to interpose a hill or rise of ground higher than the magazine between it and the mine and works, or an artificial mound of earth as high as the magazine and situate not more than thirty feet from it shall be so interposed.

(2.) Cases containing explosives shall not be opened in the magazine, and only implements of wood, brass, or copper shall be used in opening the cases. No scraps or broken portions of cartridges shall be placed in or left lying on the floor of the magazine or store.

(3.) No explosives in excess of a supply for twenty-four hours shall be allowed underground in a working-mine, and no store, for twenty-four hours' supply, shall be established without the approval in writing of the Inspector of Mines, who shall prescribe such conditions in connection therewith as he may deem necessary. When a mine is closed down all explosives shall be disposed of and all unused explosives removed from the mine.

(4.) No naked light shall be taken into any magazine or place where explosives are kept. No person shall smoke in a magazine or place where explosives are kept or while handling explosives.

(5.) The superintendent or other officer in charge of a mine shall make a thorough daily inspection of the condition of explosives in or about the same, and shall make an immediate investigation when an act of careless placing or handling of explosives is discovered by or reported to him.

(a.) Any employee who commits a careless act with an explosive or where explosives are stored, or who, having discovered it, omits or neglects to report immediately such act to an officer in charge of the mine, shall be guilty of an offence against this Act, and the officer in charge of the mine shall immediately report such offence to the Inspector or to the constable of the county or district in which the mine is situate.

(6.) No building for thawing explosives shall be maintained in connection with any mine except with the written permission of the Inspector of Mines. The site of this building and the style of structure and equipment shall be subject to the approval of the Inspector. The building shall be under the direction of the superintendent or some person authorized by him. The quantity of explosives brought into any thawing-house at any one time shall not exceed the requirements of the mine for a period of twenty-four hours, plus the amount that it may be necessary to have thawing to maintain that supply.

(7.) In no case shall powder be thawed near an open fire or a steam-boiler or by direct contact with steam or hot water, nor shall any electrical device for generating heat be allowed in the same compartment with explosives.

(8.) A reliable recording-thermometer shall be kept in the room in which explosives are thawed and the record thereof kept, but in the case of a small mine the Inspector of Mines may give permission, in writing, to use a maximum and minimum registering-thermometer on condition that a daily record of high and low temperatures be made and kept on file.

(9.) No drilling shall be done in any hole that has been charged or blasted.

(10.) When a blaster fires a round of holes he shall, where possible, count the number of shots

exploding. If there is any report missing, he shall report the same to the mine foreman or shiftboss. If a missed hole has not been fired at the end of a shift, that fact, together with the location of the hole, shall be reported by the mine foreman or shiftboss to the mine foreman or shiftboss in charge of the next relay of workmen before work is commenced by them. In case of a miss-fire shot, or suspected miss-fire shot, no person shall be allowed to return to the place where blasting is being done until the expiry of thirty minutes from the time of lighting the fuse. Except in chute blasting, no fuse shorter than three feet shall be used in any blasting operation.

A charge which has missed fire shall not be withdrawn but shall be blasted, and no drilling shall be done within a distance of three feet of a missed-fire shot or a cut-off hole containing explosive until it has been blasted. Every missed-fire shot shall be marked by the insertion of a wooden plug inserted into the outer end of the hole. The shiftboss shall be responsible for directing the angle of the hole and depth to which it shall be drilled.

No person other than the holder of a blasting certificate shall remove or attempt to remove the wooden plug with which a missed-fire hole or socket of a hole has been plugged.

(11.) In so far as possible, no blaster shall be alone when spitting fuse, and in no case shall he spit fuse without having a second light, placed conveniently close. No more than twelve holes shall be spit in any round of shots.

(12.) In sinking shafts or winzes all firing shall be done by means of electric current. In case of small operations exemption from this rule may be granted by the Inspector of Mines for the district in which the mine is situated.

(13.) Every blaster shall, before blasting, give or cause to be given due warning in every direction by shouting "Fire," and shall satisfy himself that all persons have left the working-place except those required to assist him in blasting.

Every blaster shall, before blasting, cause all entrances to the place or places where such blasting is to be done or where the safety of persons may be endangered by such blasting to be effectively guarded, so as to prevent inadvertent access to such place or places while such charges are being blasted.

A blaster shall not, where blasting takes place by electricity, enter or allow other persons to enter the place or places where the charges have been fired until he has disconnected the cables from the blasting-battery, or has pulled out and locked the switches of the blasting-circuit.

(14.) Immediately before any person conveys explosives in a shaft by means of machinery he shall give or cause to be given notice to the hoistman, deckman, and cage-tender.

The hoistman shall gently lower or raise the cage or other conveyance containing explosives. No person shall place in or take out of the shaft conveyance any explosives except under the immediate supervision of the person authorized by the superintendent, mine foreman, or shiftboss.

No person authorized to travel with explosives on any shaft conveyance and to distribute same shall leave any explosive at a station or stopping-place, unless in a place provided for storage of explosives, but he shall personally deliver the same to another authorized person.

(15.) All drill-holes, whether sunk by hand or machine-drills, shall be of sufficient size to admit of the free insertion to the bottom of the hole of a stick or cartridge of powder, dynamite, or other explosive, without ramming, pounding, or pressure. No explosive shall be removed from its original paper container.

(16.) No explosive shall be used to blast or break up ore or other material where by reason of its heated condition there is any danger or risk of premature explosion of the charge.

(17.) No explosive shall be used at any mine unless there is plainly printed or marked on every original package containing such explosive the name and place of business of the manufacturer, and the strength and the date of its manufacture. Every case of supposed defective fuse, detonator, or powder shall be reported to the Inspector of Mines,

with the name of the manufacturer and the serial number of the package from which such fuse, detonator, or powder was taken.

(18.) Every underground explosive store for keeping twenty-four hours' supply shall be in charge of a competent person acquainted with the nature of explosives, whose name shall be entered in a book to be called the "Explosives Storage Book," and he shall be responsible for the proper receipt, storing, and distribution of the explosives, and shall keep full particulars of all receipts and deliveries in the said book, which book shall be kept in the store.

(a.) The person in charge of underground explosives shall only receive and deliver explosives which are in good order and condition.

(b.) And shall not allow explosives to be issued from the store unless upon the written order of an authorized person.

(c.) The person in charge of a magazine shall only issue the probable number of cases of explosives required for twenty-four hours for each working-place.

(d.) The daily delivery of explosives to each blaster shall be clearly and accurately recorded.

(19.) In no case shall detonators be transported in the same conveyance or carried in the same receptacle with any other explosive, safety-fuse excepted.

(20.) No person shall conduct or be allowed to conduct any blasting operations in or about a mine unless he holds either a provisional or a permanent blasting certificate: Provided that a prospector, having charge of not more than twelve workmen and being the possessor of a special permit authorizing him to carry on blasting operations for the purpose of quarrying, trench-cutting, and general surface prospecting, issued by the Inspector of Mines for the district in which such prospector is at the time working, may conduct such blasting operations without being the holder of such certificate.

(21.) Upon engagement a miner shall produce his blasting certificate, which shall be retained by the superintendent until the termination of the engagement. Provisional blasting certificates shall be similarly retained by the superintendent. No person who is not the holder of a blasting certificate shall prepare any blast. A blaster may be assisted in preparation and firing of charges by reliable persons who are not the holders of blasting certificates: Provided always that he shall not be so assisted unless such persons are acting under his direct supervision: Provided, further, that he shall be personally responsible for any accident occurring through the ignorance, inexperience, or carelessness of any such person.

(22.) No person other than one holding a blasting certificate or permit, or a person authorized by the superintendent in writing, shall in any mine whatever open or interfere in any manner whatsoever with a box containing explosives.

(23.) No person shall, either at the beginning of a shift or after blasting, enter the working-place until he has received definite instructions from the mine foreman, shiftboss, or blaster.

(24.) Permanent blasting certificates shall be obtained from an Inspector of Mines. Provisional blasting certificates valid for a period not exceeding ninety days, or until the first visit of the Inspector of Mines, may be granted by the mine superintendent. No more than one provisional certificate shall be granted to one and the same person. Such certificates may be obtained in blank form from the office of the Chief Inspector of Mines. A duplicate of each provisional blasting certificate issued must be forwarded to the office of the Chief Inspector of Mines, Victoria, B.C.

(25.) An Inspector of Mines may grant permanent blasting certificates to persons who can satisfy him as to their fitness to receive the same. The Inspector of Mines may by an endorsement place any limitation or qualification he may think fit upon the scope of the certificate.

(26.) A superintendent shall not sign a provisional blasting certificate until he has, by inquiry and examination, found that the applicant has a competent knowledge of blasting operations and the

rules and regulations referring thereto, and that he is trustworthy and sober.

(27.) The applicant for a permanent blasting certificate must produce satisfactory proof that he is properly qualified to conduct blasting operations.

(28.) If at any time the holder of a blasting certificate issued in accordance with these regulations shall, in the opinion of the Inspector of Mines, be guilty of inattention or negligence in execution of his duties, or shall suffer from any physical infirmity likely to be detrimental to efficient discharge of his duties, such Inspector may immediately suspend or cancel such certificate.

(29.) If at any time the holder of a blasting certificate, whether provisional or permanent, issued in accordance with these regulations, shall, in the opinion of the superintendent, be guilty of a breach of any of these regulations, such superintendent may immediately suspend such person from duties of a blaster, and shall forthwith report any such suspension to an Inspector of Mines for such action as he thinks fit.

The above regulations to come into force on the fifteenth day of May, 1926.

LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

Rule 76.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867"—whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint-stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act—shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant. Such notice shall be published in the British Columbia Gazette and in one daily and one weekly newspaper freely circulating in all parts of the Province. When the proposed Private Bill is of a local nature, the notice shall be furthermore published in some newspaper in the electoral district affected, or if there be no newspaper therein, then in the nearest electoral district in which a newspaper is published. Such notice shall in all cases be continued for a period of six weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

72. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committee charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with copies of the notices published.* Such publication to be proved by affidavit or declaration to the satisfaction of the Clerk of the House. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House the sum of three hundred dollars. If a copy of the Bill, Petition, and notices shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session, or if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

77. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Rule 76, also

at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

78. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills. Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

82. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¼ inches by 7½ inches. There shall be a marginal number every fifth line of each paper; the numbering of the lines is not to be run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By Rule 83, a model form of Railway Bill is adopted. A copy of same can be obtained upon application to the Clerk.

All bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

In the case of Bills to Incorporate Companies, in addition to the fee of \$300 mentioned in Rule 72, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

Every Petition for a Bill to incorporate a company shall state the name of the proposed company.

Petition signed by agents or attorneys must be accompanied by the authority of such agent, etc.

CERTIFICATE OF INCORPORATION.

"SOCIETIES ACT."

CANADA:

PROVINCE OF BRITISH COLUMBIA.

No. 1499.

I HEREBY CERTIFY that "The First Baptist Church of North Vancouver, B.C.," has this day been incorporated as a Society under the "Societies Act."

The locality in which the operations of the Society will be chiefly carried on is North Vancouver, in the Province of British Columbia.

Given under my hand and seal of office at Victoria, Province of British Columbia, this twenty-fifth day of March, one thousand nine hundred and twenty-six.

[L.S.]

H. G. GARRETT,

Registrar of Companies.

The objects of the Society are:—

The salvation of mankind and the extension of the Kingdom of our Lord and Saviour Christ Jesus, the rules of faith and practice being substantially as follows:—

That we believe that the Holy Bible was written by men supernaturally inspired; that it has truth without admixture of error for its matter; and therefore is, and shall remain to the end of the age, the only complete and final revelation of the will of God to man, the true centre of Christian union, and the supreme standard by which all human conduct, creeds, and opinions shall be tried:

By "Holy Bible" we mean that collection of sixty-six books, from Genesis to Revelation, which, as originally written, does not merely contain and convey the Word of God, but IS the very Word of God:

By "Inspiration" we mean that the Books of the Bible were written by holy men of old, as they were moved by the Holy Spirit, in such a definite way that their writings were supernaturally inspired and free from error, as no other writings have ever been or ever will be inspired:

We believe that there is one, and only one, living and true God, an infinite, intelligent Spirit, the Maker and Supreme Ruler of heaven and earth; inexpressibly glorious in holiness and worthy of all possible honour, confidence, and love; that in the unity of the Godhead there are three persons, the Father, the Son, and the Holy Spirit, equal in every Divine perfection, and executing distinct but harmonious efforts in the great work of redemption and salvation:

We believe that the Holy Spirit is a Divine person, equal with God the Father and God the Son; that He was active in the creation; that He convicts of sin, of judgment, and of righteousness, and that He bears witness to the truth of the gospel in preaching and testimony; that He is the Agent in the new birth; that He seals, baptizes, endues, guides, teaches, witnesses, sanctifies, and helps the believer:

We believe that Satan was once holy and enjoyed heavenly honours; but through pride and ambition to be as the Almighty, fell and drew after him a host of angels; that he is now the malignant prince of the power of the air and the unholy god of this world. We hold him to be man's great tempter, the enemy of God and Christ, the accuser of the saints, the author of all false religions, the chief power back of the present apostasy, the lord of

the anti-Christ, and the author of all the powers of darkness—destined, however, to final defeat at the hands of God's Son, and the judgment of an eternal justice in hell, a place prepared for him and his angels:

We believe in the Genesis account of creation, and that it is to be accepted literally, and not allegorically or figuratively; that man was created in God's own image and after His own likeness; that the creation of man was not a matter of evolution or evolutionary change of species, or development through interminable periods of time from lower to higher forms; that all animal and vegetable life was made directly, and God's established law was that they should bring forth only "after their kind":

We believe that man was created in innocence under the law of his Maker, but by voluntary transgression fell from his sinless and happy state; in consequence of which all mankind are now sinners, not by constraint, but by choice, and, therefore, under just condemnation without defence or excuse:

We believe that Christ Jesus was begotten of the Holy Ghost in a miraculous manner; born of Mary, a virgin, no other man was ever born or can ever be born of woman, and that He is both the Son of God, and God, the Son:

We believe that the salvation of sinners is wholly of grace, through the mediatorial offices of the Son of God, who, by the appointment of the Father, freely took upon Him our nature, yet without sin, honoured the Divine law by His personal obedience, and by His death made a full and vicarious atonement for our sins; that His atonement consisted not in setting us an example by His death as a martyr, but was the voluntary substitution of Himself in the sinner's place, the Just dying for the unjust, Christ, the Lord, bearing our sins in His own body on the tree; that, having risen from the dead, He is now enthroned in heaven, and uniting in His Wonderful Person the tenderest sympathies with Divine perfection, He is every way qualified to be a suitable, compassionate, and all-sufficient Saviour:

We believe that, in order to be saved, sinners must be "born again"; that this "new birth" is a new creation in Christ Jesus; that it is instantaneous and not a process; that in the "new birth" the one dead in trespasses and in sins is made a partaker of the Divine nature, and receives eternal life, the free gift of God; that this new creation is brought about in a manner above our comprehension, not by culture, not by character, nor by the will of man; but wholly and solely by the power of the Holy Spirit in connection with Divine truth, so as to secure our voluntary obedience to the gospel; and that its proper evidence appears in the holy fruits of repentance and faith and newness of life:

We believe in God's electing grace; that the blessings of salvation are made free to all by the gospel; that it is the immediate duty of all to accept them by a cordial, penitent, and obedient faith; and that nothing prevents the salvation of the greatest sinner on earth but his own inherent depravity and voluntary rejection of the gospel; which rejection involves him in an aggravated condemnation:

We believe that the great gospel blessing which Christ secures to such as believe in Him is justification; that justification includes the pardon of sin and the gift of eternal life on principles of righteousness; that it is bestowed not in consideration of any works of righteousness which we have done; but solely through faith in the Redeemer's blood. His righteousness is imputed unto us:

We believe that repentance and faith are solemn obligations and are inseparable graces, wrought in our souls by the quickening Spirit of God; thereby being deeply convicted of our guilt, danger, and helplessness, and of the way of salvation by Christ, we turn to God with unfeigned contrition, confession, and supplication for mercy; at the same time heartily receiving the Lord, Christ Jesus, and openly confessing Him as our only and all-sufficient Saviour:

We believe that a church of Christ is a congregation of baptized believers associated by a cov-

enant of faith and fellowship of the gospel; observing the ordinances of Christ; governed by His laws; and exercising the gifts, rights, and privileges invested in them by His word for the saving and healing of body, soul, and spirit; that its officers of ordination are pastors, elders, and deacons, whose qualifications, claims, and duties are clearly defined in the scriptures. We believe that the true mission of the church is found in the great commission: First, to make individual disciples; second, to build up the church; third, to teach and instruct, as He has commanded. We do not believe in the reversal of this order; we hold that the local church has the absolute right of self-government, free from the interference of individuals or organizations; and that the one and only Superintendent is Christ, through the Holy Spirit:

We believe that it is scriptural for true churches to co-operate with each other in contending for the faith and for the furtherance of the gospel; that every church is the sole and only judge of the measure and method of its co-operation; on all matters of membership, of discipline, of benevolence, the will of the local church is final:

We believe that Christian baptism is the immersion in water of a believer, into the name of the Father, the Son, and the Holy Ghost; to show forth in a solemn and beautiful emblem our faith in the crucified, buried, and risen Saviour, with its effect in our death to sin and resurrection to a new life; and that it is prerequisite to the privileges of church membership:

We believe that in the Lord's Supper, those partaking, by the sacred use of bread and wine, commemorate together the death of Christ on Calvary and His coming again to earth. We believe, further, that all partaking should first subject themselves to solemn self-examination:

We believe and accept the sacred Scriptures upon the subjects of the Resurrection, the Return of Christ, and related events, at their face and full value:

It is the declared purpose of this Society to make no compromise with Modernism. This Society will be no respecter of persons; but will oppose the principles of Modernism by whomsoever they may be espoused:

To acquire or take over land and premises or to build premises for the purposes of the Society.
